SUMMARY

Entry-level Full-Stack MERN and Mobile App Developer with 6 months of internship experience designing and deploying 25+ production web applications, RESTful APIs, and interactive dashboards, plus cross-platform mobile apps built in Flutter. Proficient in React.js, Node.js, MongoDB, Express.js, Flutter, and Python, with hands-on machine learning integration experience including SAS Viya. Reduced CI/CD deployment time by 20% through pipeline automation and improved database read performance by 30% via query optimization. Strong collaborator in Agile/Scrum environments with a track record of delivering projects on schedule.

SKILLS

Languages: JavaScript, TypeScript, Python, Dart, C++, HTML5, CSS3
Frameworks: React.js, Next.js, Node.js, Express.js, Flutter, Flask, Django, Tailwind CSS
Mobile Development: Flutter, Dart, Cross-Platform App Development, Mobile UI Design
Databases: MongoDB, PostgreSQL, Mongoose ODM, Aggregation Pipelines, Database Indexing
DevOps: Git, GitHub, Vercel, CI/CD Pipelines (GitHub Actions), Agile, Scrum
Machine Learning: Scikit-learn, SAS Viya, Random Forest, SVM, Naive Bayes
Other: JWT Authentication, REST API Design, SEO

EXPERIENCE

MERN Stack Developer Intern — Digipodium (Remote)

Feb 2025 – Aug 2025

- Designed and deployed 25+ full-stack web applications and RESTful APIs using the MERN stack within a high-velocity Agile sprint cycle, meeting all delivery deadlines.
- Integrated 10+ third-party APIs including payment gateways, OAuth authentication, and data provider services into React.js frontends, improving platform functionality and user engagement by 35%.
- Implemented and maintained CI/CD pipelines using GitHub Actions and Vercel, reducing team deployment time by 20% and eliminating manual release errors across 15+ projects.
- Optimized MongoDB query performance using indexing strategies and aggregation pipelines, reducing average API response time by 30% and supporting 200+ concurrent users.
- Collaborated across design, backend, and QA teams in daily standups and sprint reviews, delivering a complex multi-module web platform on time and within budget.

PROJECTS

Blog Mind – Blogging Platform — blog-mind.vercel.app

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed a full-stack MERN blogging platform supporting 200+ concurrent users with threaded comments, user profiles, blog competitions, gamified points & rewards, and a global leaderboard.
- Optimized MongoDB queries using indexing and aggregation pipelines, reducing database round-trips by 40% and improving average page load speed by 50%.

Draftpal – AI Email Automation Tool — draftpal-buddy.vercel.app

React.js, Node.js, Express.js, Nodemailer, Tailwind CSS

- Built an AI-powered email template generator creating fully responsive HTML emails, enabling one-click bulk delivery to 1,000+ recipients and reducing email creation time by 70%.

Medquick – Disease Prediction App — medquick.eight.vercel.app

Next.js, Flask, MongoDB, Python, Scikit-learn

- Developed a symptom-based disease prediction app using an ensemble ML classifier (Random Forest, SVM, Naive Bayes) achieving 85% prediction accuracy across 40+ diseases within a 48-hour hackathon.

DiffOMatic – File Comparison Tool — diff-0-matic.vercel.app

React.js, Next.js, Node.js, TypeScript

- Engineered a multi-format file comparison tool supporting 7+ file types (text, images, audio, video, ZIP, Word, Excel) with a custom real-time visual diff engine handling files up to 50 MB.

EDUCATION

Chandigarh University — Master of Computer Applications (MCA)

Aug 2025 – Present

Coursework: Artificial Intelligence, Database Management Systems, Blockchain, Algorithms, Machine Learning, Python

Sherwood College of Professional Management — Bachelor of Computer Applications (BCA)

Oct 2022 – Jun 2025

Coursework: System Design, Software Development Life Cycle, Statistics, Computer Networks, Computer Architecture

CERTIFICATIONS

Machine Learning Using SAS Viya — SAS

Aug 2026

Search Engine Optimisation (SEO) Certification — Digital Marketing Institute

Jun 2025 – Sep 2025

MERN Stack Development Certification — Digipodium

Jul 2024 – Aug 2024
